RE: Oglala Sioux Tribe nomination of George Rogers III to the FCC Native Nations Broadband Task Force

Dear Mr. Blackwell:

As you know, Mr. George Rogers III has been working with tribal communities for over 14 years in the adoption of Broadband & Technology for Indian Country. The Oglala Sioux Tribe has designated Mr. Rogers, as our Agency Representative for Broadband and Technology Issues in a long term contract. He is under contract to the tribe, as our resident expert, who is helping us devise a plan to meet the national requirements, as well as, to bring both symmetry and function to our efforts within, as we move towards complete broadband adoption.

As the contracting officer of the Oglala Sioux Tribe, I have appointed Mr. Rogers to this position based upon both his expertise and background in the issues regarding our overall success. His personal commitment to the betterment of all of Indian Country through broadband technology has been felt in and around Indian Country, thus, his nomination to the Native Nations Task Force we feel is an important step in the right direction for our tribe and Indian Country.

Please contact Mr. Rogers directly at his offices in Denver, Colorado.

George Rogers III, Oglala Sioux Tribe Designated Agency Representative: Broadband & Technology
President, Bestin Broadband Inc
